

Start with the " $Y$ " and use every other letter to fill in the blanks. Do this until you are done with the top circle. Then, do the same with the letters in the second circle, beginning with the letter " $W$ "
 Kt of reach! Children often like to go to "secret areas of their bedroom, such as closets or under the bed, to experiment with these items. This causes over 35,000 fires each year and 400 deaths! FAULTY WIRING \& IMPROPER USE OF APPLIANCES are the main cause of fires in the bedroom. Never overload plugs \& throw out frayed electric cords. Keep heaters three feet from bedding, curtains and clothing. MOM \& DAD - NEVER SMOKE IN BED!

The best recipe for your kitchen is a working smoke detector, placed just outside the kitchen so that heat from cooking won't set it off! Use pot-holders whenever you pick up any hot tray, pot, pan or dish. It's not just flames that can burn you! Steam is very hot and can scald you! If a pan catches fire, cover to smother or throw baking soda on it.

LIVING ROOMS, DENS \&\% GREAT ROOMS
While they look very comfy, these rooms have many hazards, especially for children! TV's and
entertainment centers are usually found in these rooms, run cords behind furniture or have them run behind walls by an electrician. NEVER run wires acros the floor or under rugs. Fireplaces should be put out before you go to sleep. Have them cleaned by a pro each year. Keep smoking items away from children.

Although this room may look shiny and clean, the bathroom can be a very
dangerous place. It may be wet and steamy while you're using the bathroom, but that doesn't mean that a fire can't happen! Space heaters, blow-dryers, curling irons and candles can all start fires, especially if there are towels, clothes or curtains nearby. Lock up medicines, razors and chemicals. Never leave children alone in the bathtub!

The BACKYARD is a lot of fun! Ball games, B-B-Q food, pretty plants and warmer weather! But you must always be very careful about the things that you touch, play near and eat. Dangerous items include the gas for the B-B-Q grill and gasoline for mowers and tools. Lighter fluid, matches, lighters, charcoal, and bug sprays are very flammable! They can also harm you and make you very sick! Walk around the backyard with your parents to find what is safe and what can harm you. Enjoy the outdoors safely!

## Hese fles Soms of Thy Scunouts Pumss Cor Homs Sos

There are many fire hazards lurking in your home! Do you know what they are or where to look for them? Many home fires could have been prevented! Hunting through your home for these hidden dangers could prevent a tragedy.

- Never leave the kitchen while food is cooking.
- Have an adult nearby when you're cooking or preparing food. - Use pot holders or oven mitts when handling pots and pans.

- Turn pot handles inward so that they don't get knocked over.
- Clutter is a fire hazardl Throw away old papers \& catalogs. Donate unwanted items.
- The furnace should be cleaned and inspected by a pro every year!
- Store gasoline and other flammables in safe containers outside the house

Throw away old paint brushes and rags. Tightly close all paint cans.

- Never play with matches or lighters. They can burn you badly Jr. Bear says: "If something needs to be lit, ask an adult to do it."

- Unplug small appliances when you are not using them.
- Never place fingers or toys in outlets! Outlets can burn youl
- Don't overload electrical outlets. Throw out broken or frayed cords. Aluminium foil and metal should never be used in a microwave oven.
- Food cooked in the microwave oven may not look hot, but it is! Open the door slowly and always use an oven mitt to remove the food
- If a pan of food catches on fire, Always Cover to Smother!

Use a pot holder so you don't get burned. Then turn off the heat!
