"We take care of people—that's what we do."

Here's how to DIAL: 911

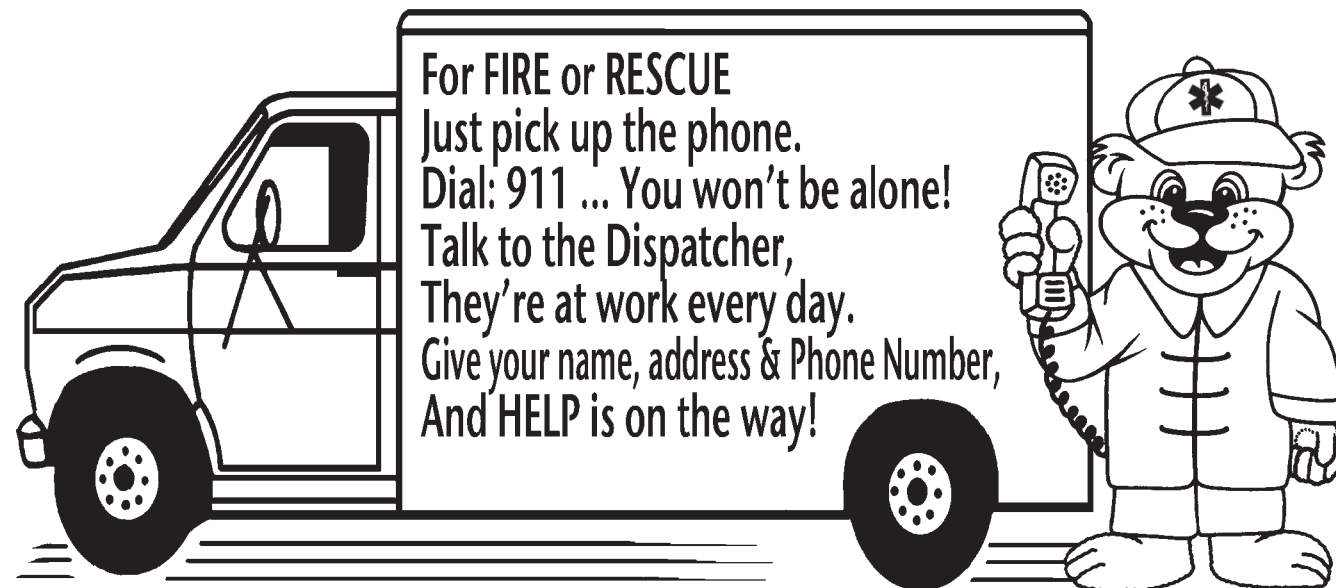

Let your parents show you how to hold the phone.

- First touch the number 9.
- Then touch the number 1.
- Then touch the number 1 again.
- The Dispatcher will answer.
- Give the Dispatcher the information that they need to send help to you.

Stay Calm and Speak Clearly!

Do Not Hang Up Until the Dispatcher Tells You To!

In An Emergency Dial: 911

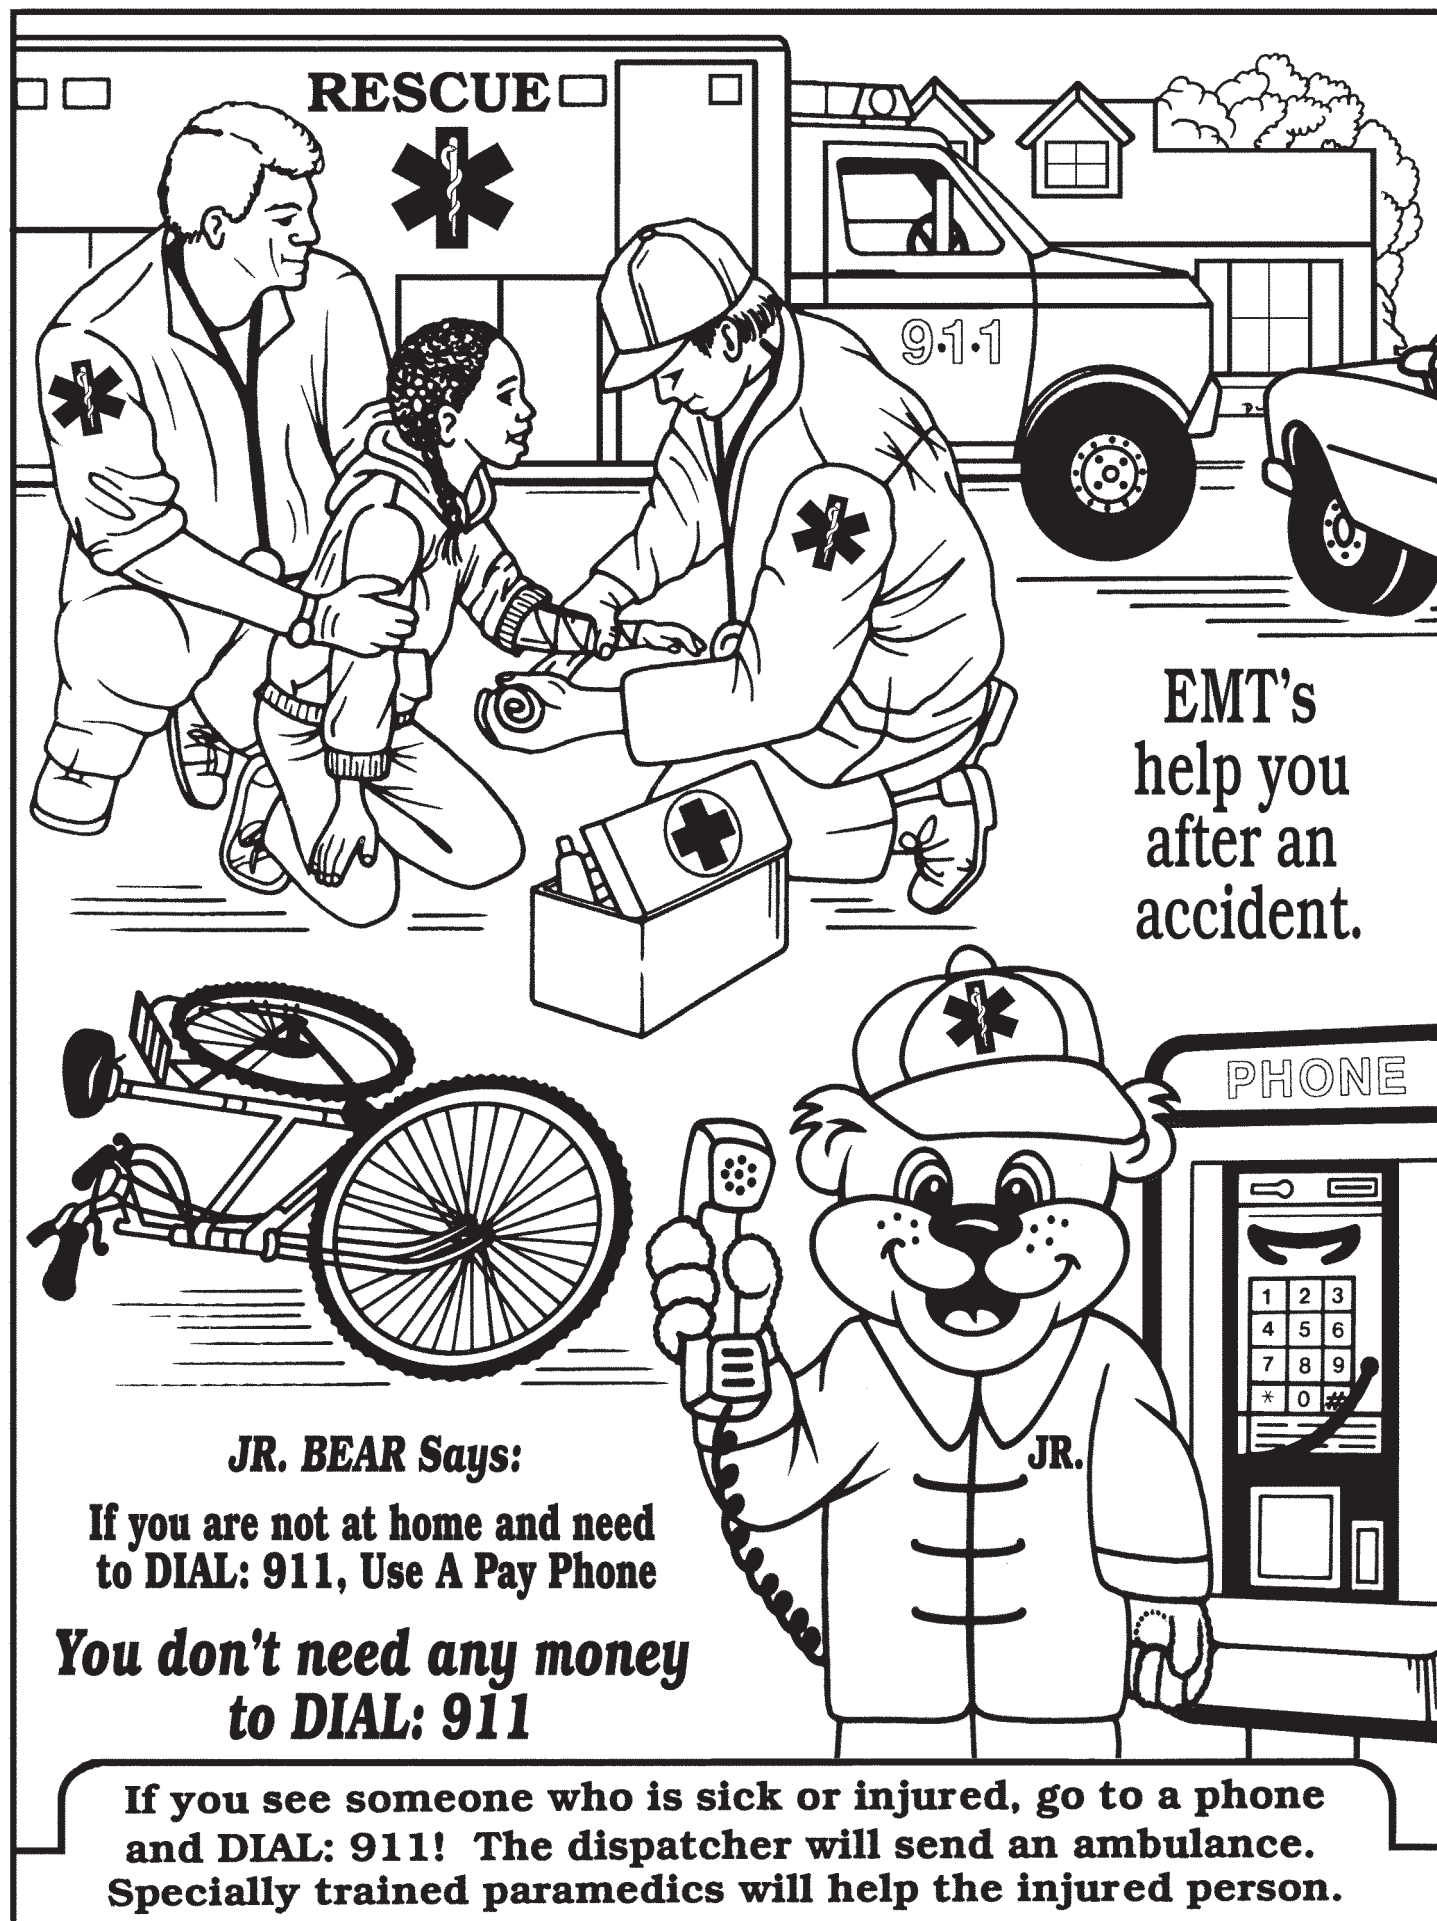

SAFE-T-BEAR and the E.M.T.'s Are Here To Help You!

E.M.T.'s Are Our Friends!

We are Emergency Medical Technicians, also known as E.M.T.'s.

We have special training so that we can help people who have had a car accident, heart attack, burn, or even broken bones from falls at home, at school or at play. We are on duty everyday, morning, noon and night, to help you and your family during a medical emergency!

If something falls into the pool, always ask an adult for help! **NEVER** jump or dive into the water to get it. The water may be too deep or shallow and you will be hurt!

LEARN HOW TO SWIM!

DO's Practice Safety With A Smile!

SAFE-T-BEAR Says:
Practicing Safety Can Be Fun!

HAVE AN ADULT WATCH YOU!

ALWAYS SWIM WITH A BUDDY! PRACTICE WATER SAFETY!

We Love Our Helmets!

ALWAYS WEAR HELMETS & OBEY TRAFFIC RULES!

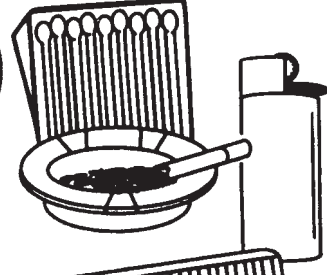

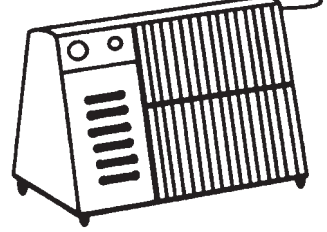

ALWAYS USE SEATBELTS WHEN RIDING IN A CAR!

Kids Always Sit in the Back Seats!

DON'Ts FROWN UPON SAFETY HAZARDS!

Please don't play with matches, lighters, electric heaters or pots and pans that are on the stove. All these things could burn you badly. Instead, try calling a friend, reading a book or playing with your toys. **THINK SAFETY!**

NEVER climb on chairs or cabinets to reach for something. You could easily slip and fall.

NEVER take medication unless your parents, a doctor or the school nurse gives it to you!

Medicine is **NOT** candy! It could make you sick.

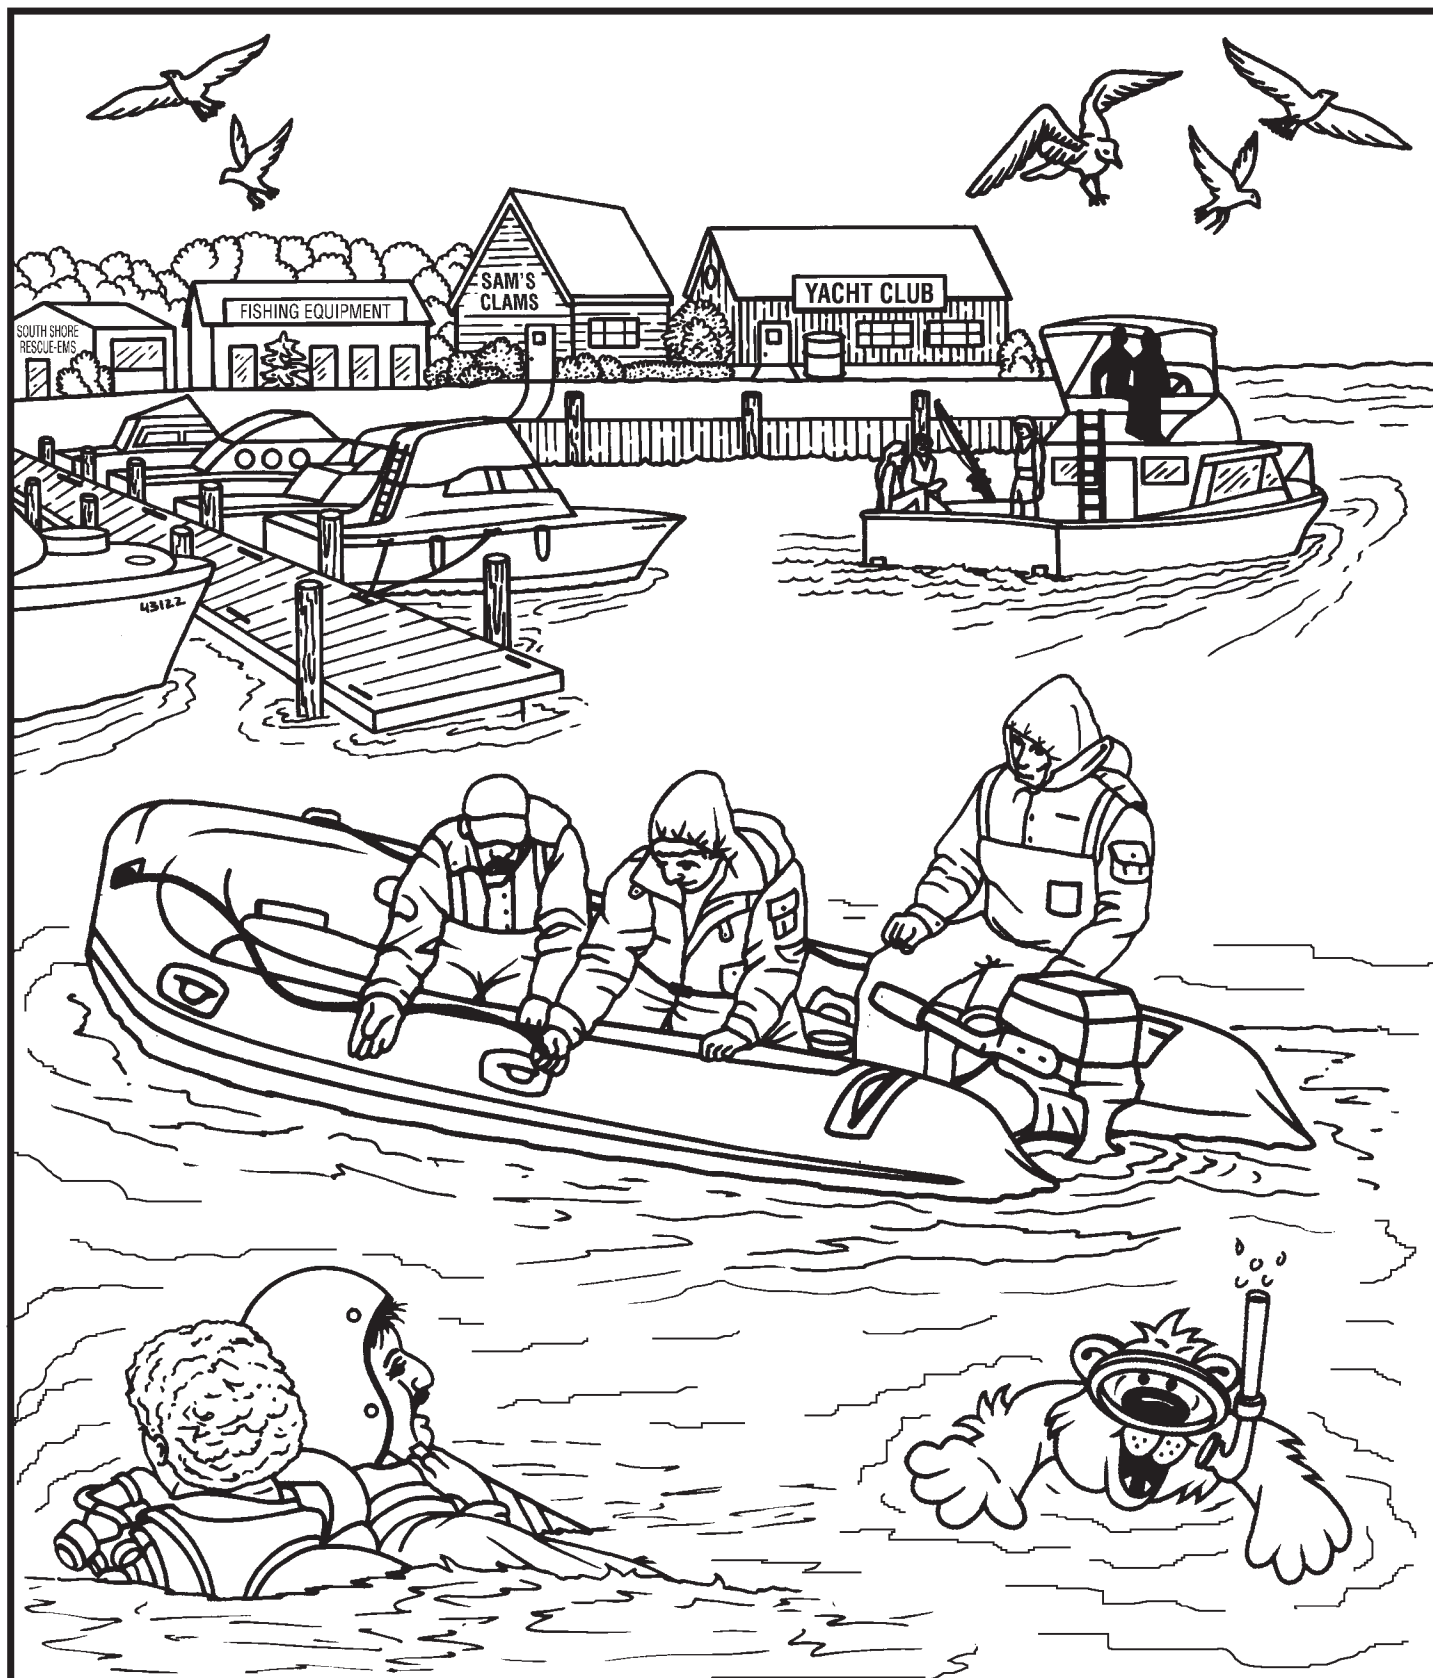

NEVER leave your toys on the stairs or in the hallway. You could trip over them and hurt yourself. **THINK SAFETY!**

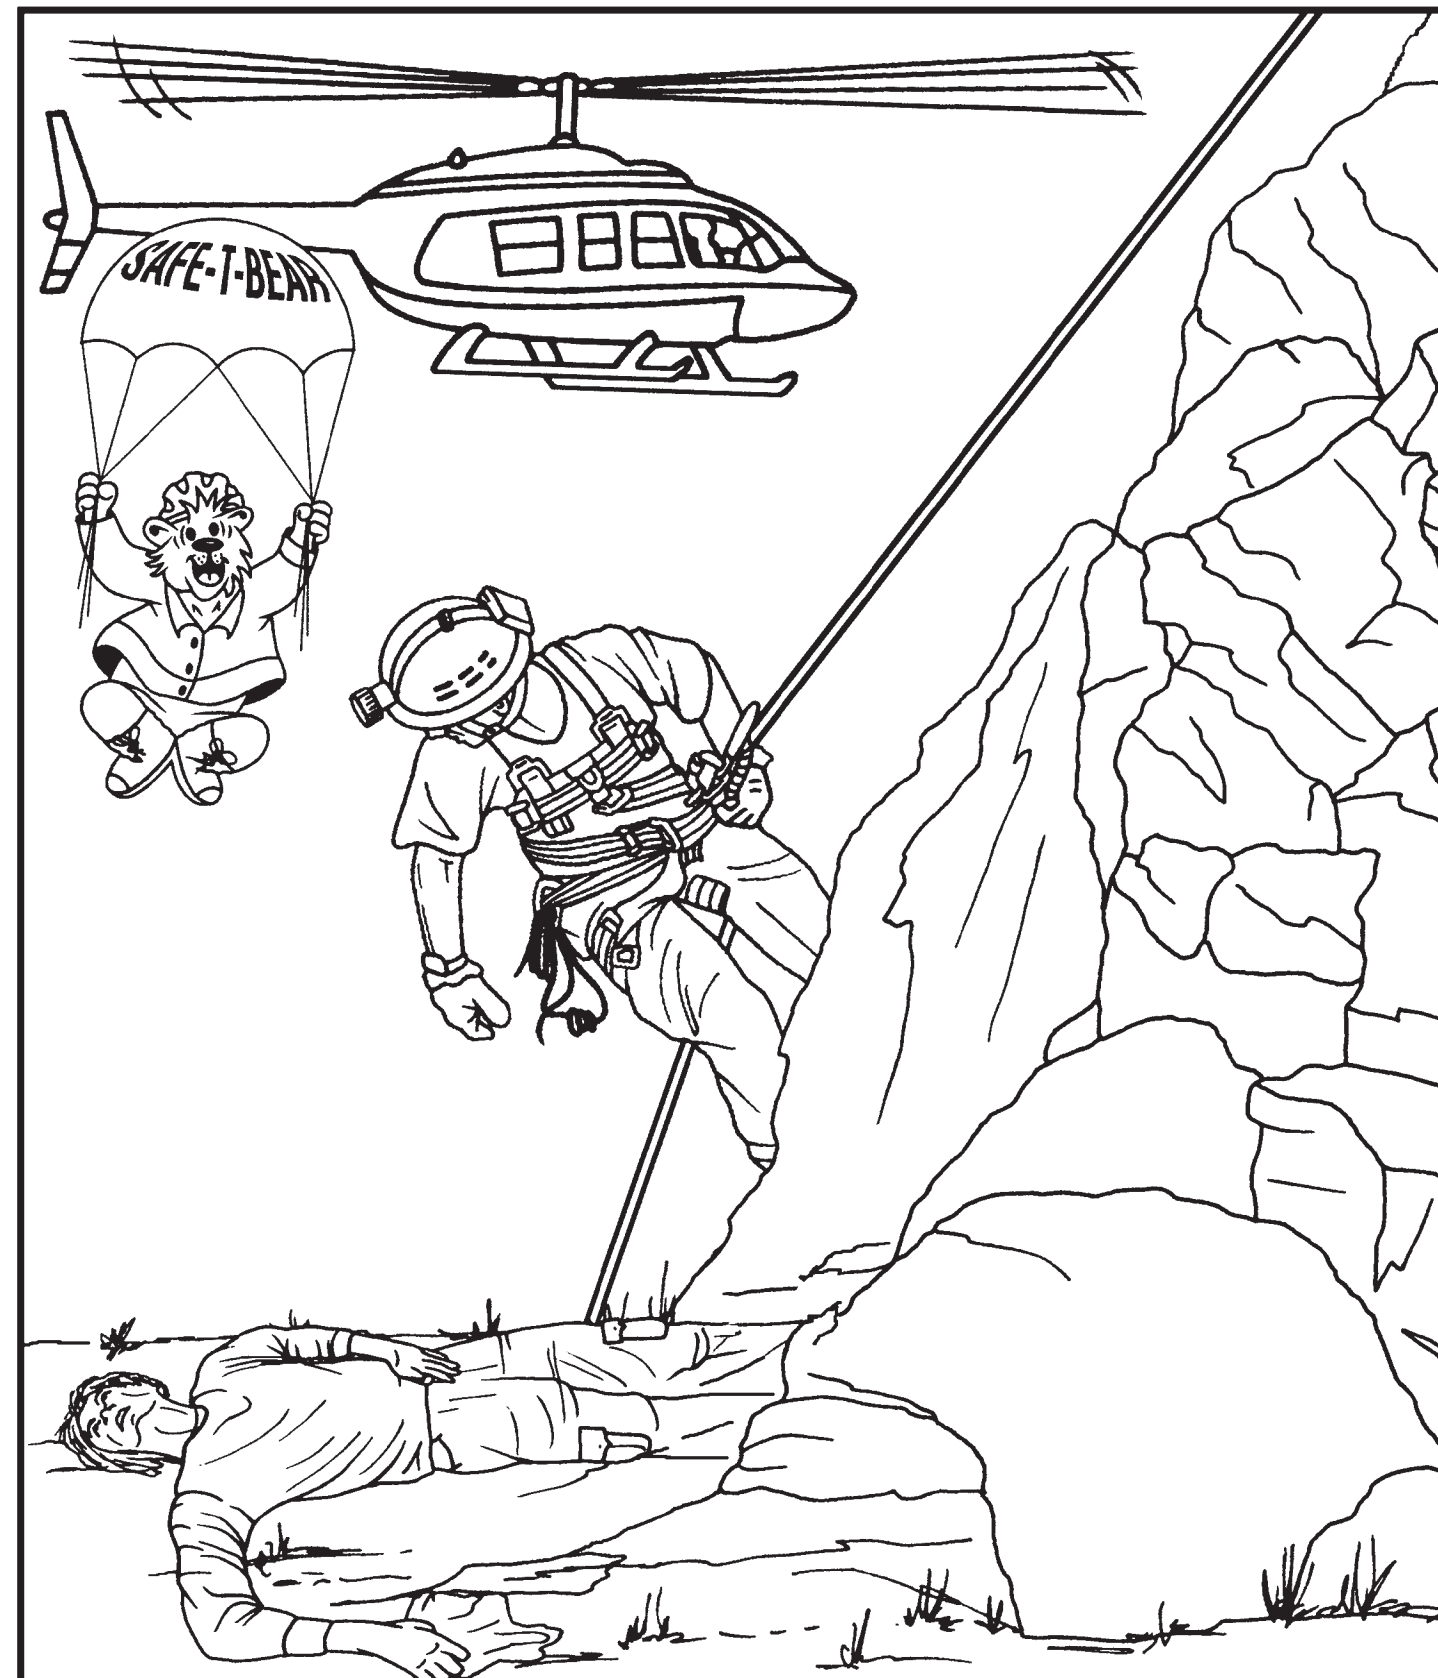

NEVER play with matches or lighter fluid! They can easily start a fire! Lighter Fluid is **POISONOUS!**

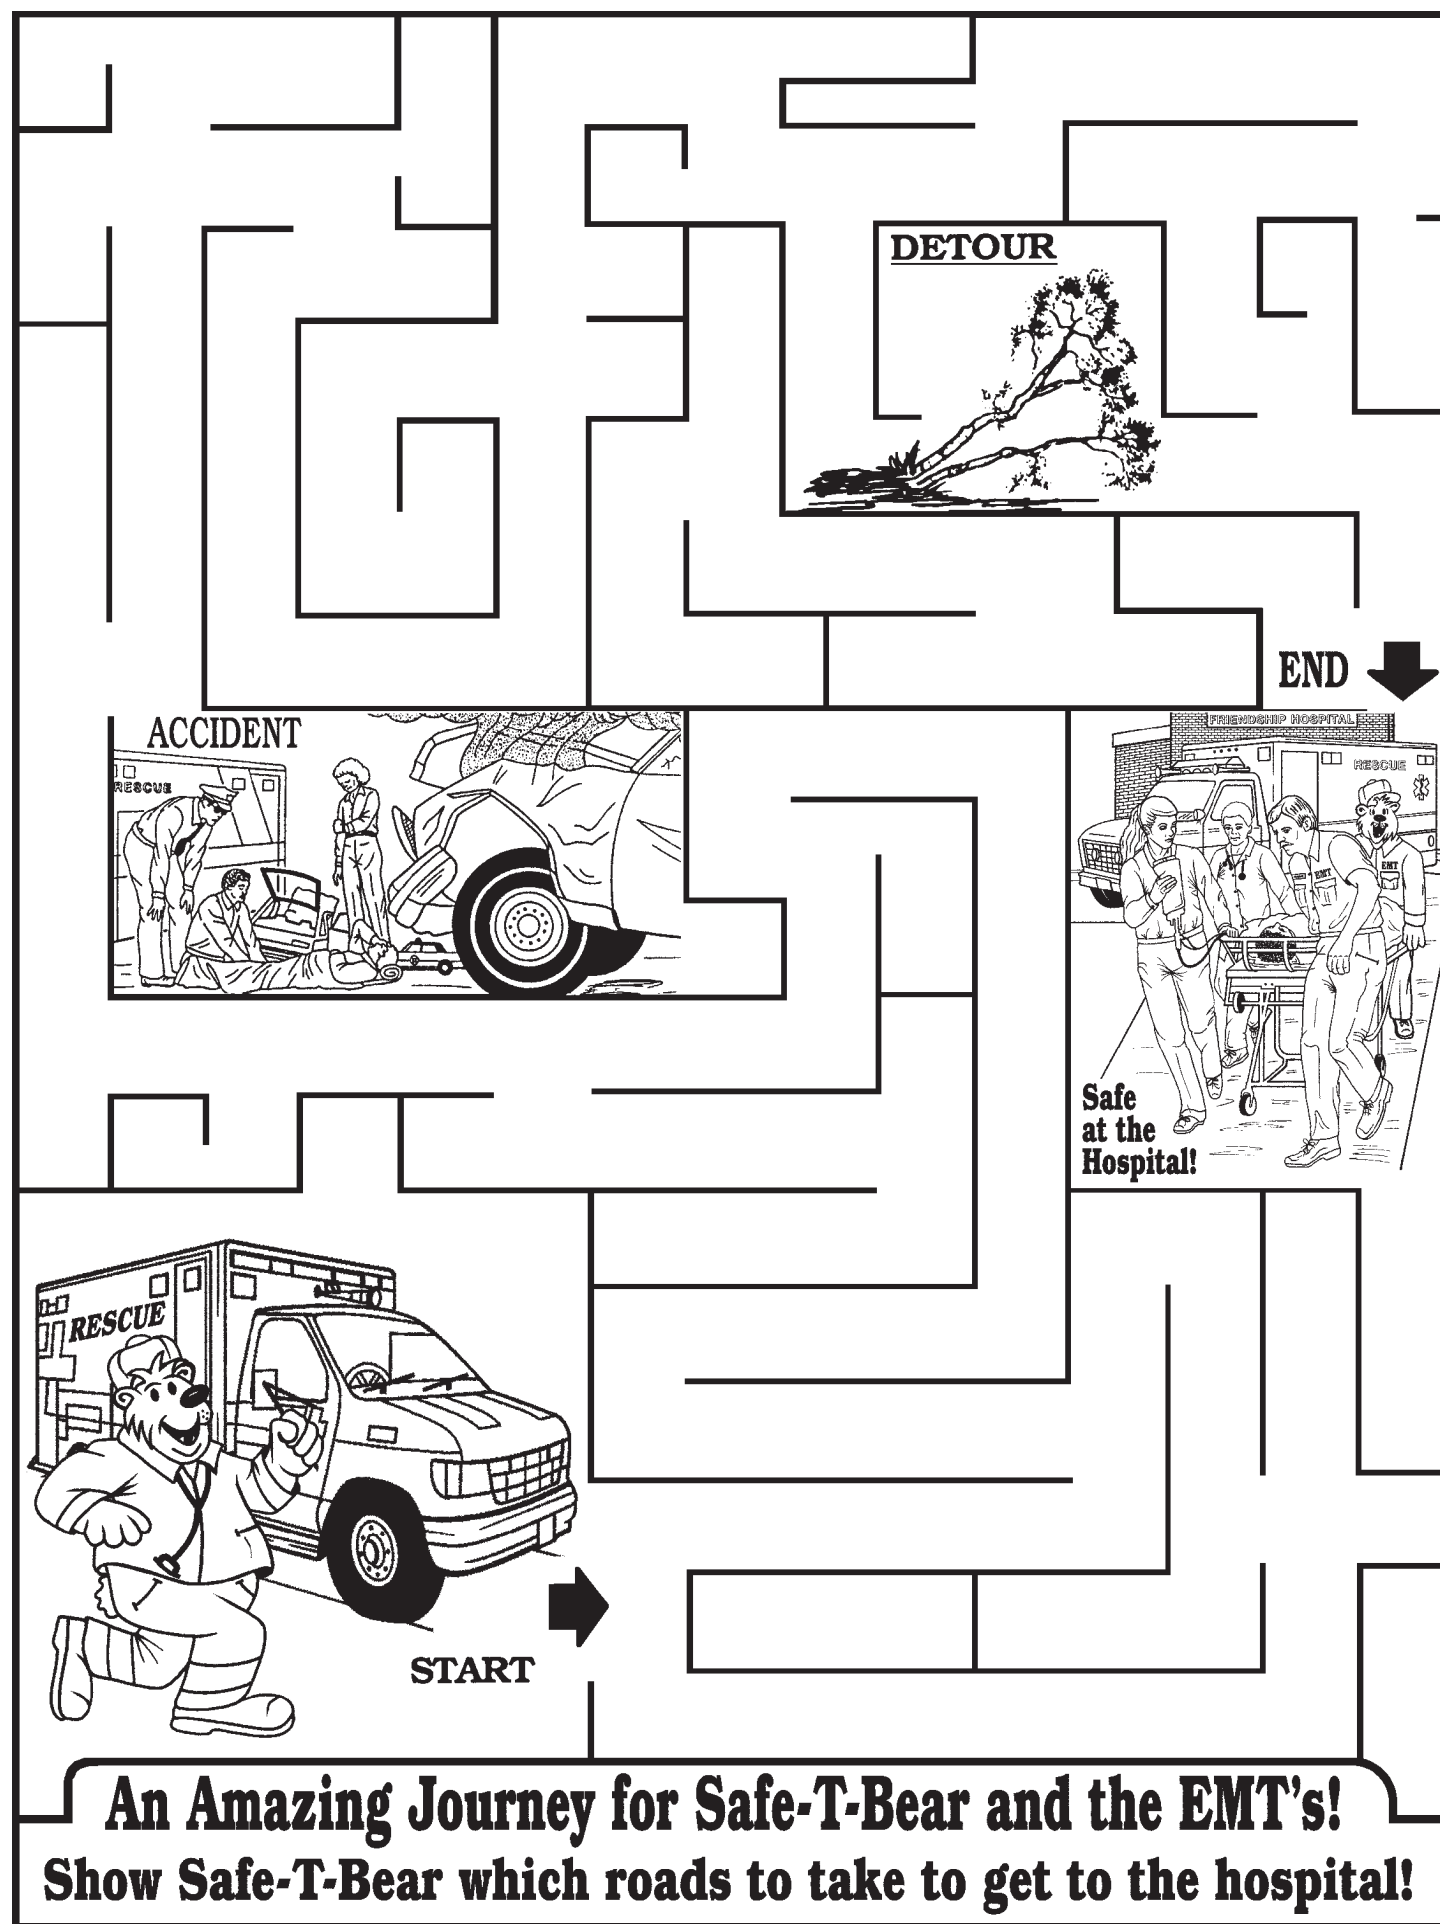

NEVER use hair dryers near water! **DANGER:** You could be electrocuted

Sometimes EMT's use boats to rescue people that have been in a water related accident. Here, a diver in scuba gear is rescuing a fisherman that fell overboard. Once the fisherman is on board the rescue boat, the EMT's stabilize him. He is then taken to a hospital for a check-up. He is OK and will be back with his family tonight!

Some EMT's are trained in search and rescue. Ropes, harnesses and backboards are special pieces of equipment that are used to rescue people that are lost or injured in forests, mountains, and ski slopes. Sometimes helicopters are used to rescue the injured and fly them to the hospital. SAFE-T-BEAR is parachuting down to the victim!

Ambulances are made in many different sizes and shapes.

CERTIFICATE OF MERIT

(child's name)

is a member of SAFE-T-BEAR & SAFE-T-BEAR JUNIOR's
Accident Awareness & Prevention Team

As a member in good standing, I promise to follow the
rules for safety, accident awareness and prevention.

I will never play with dangerous objects, swim alone,
or do anything that would endanger my family and friends.

I will report any accidents or hazards
that I see to an adult so that my
family and friends will be safe.
