Hey Kids,
Buckling up
is the
first thing
you should
do when
you get
into a car.

YOU MUST BE SEATED IN THE RIGHT AREA OF THE CAR SO THAT YOU'RE SAFE!

PARENTS: Motor Vehicle Crashes Are the #1 Cause of Death Among Children 1 to 19!
Of those children aged 12 and under that died in accidents in 2011, 31% were unrestrained.

The safest place for a child of any age is in the back seat of the car. In the back, they are farther away from the impact of a head-on collision. This is the most dangerous type of accident, that can cause serious or even life-threatening injuries.

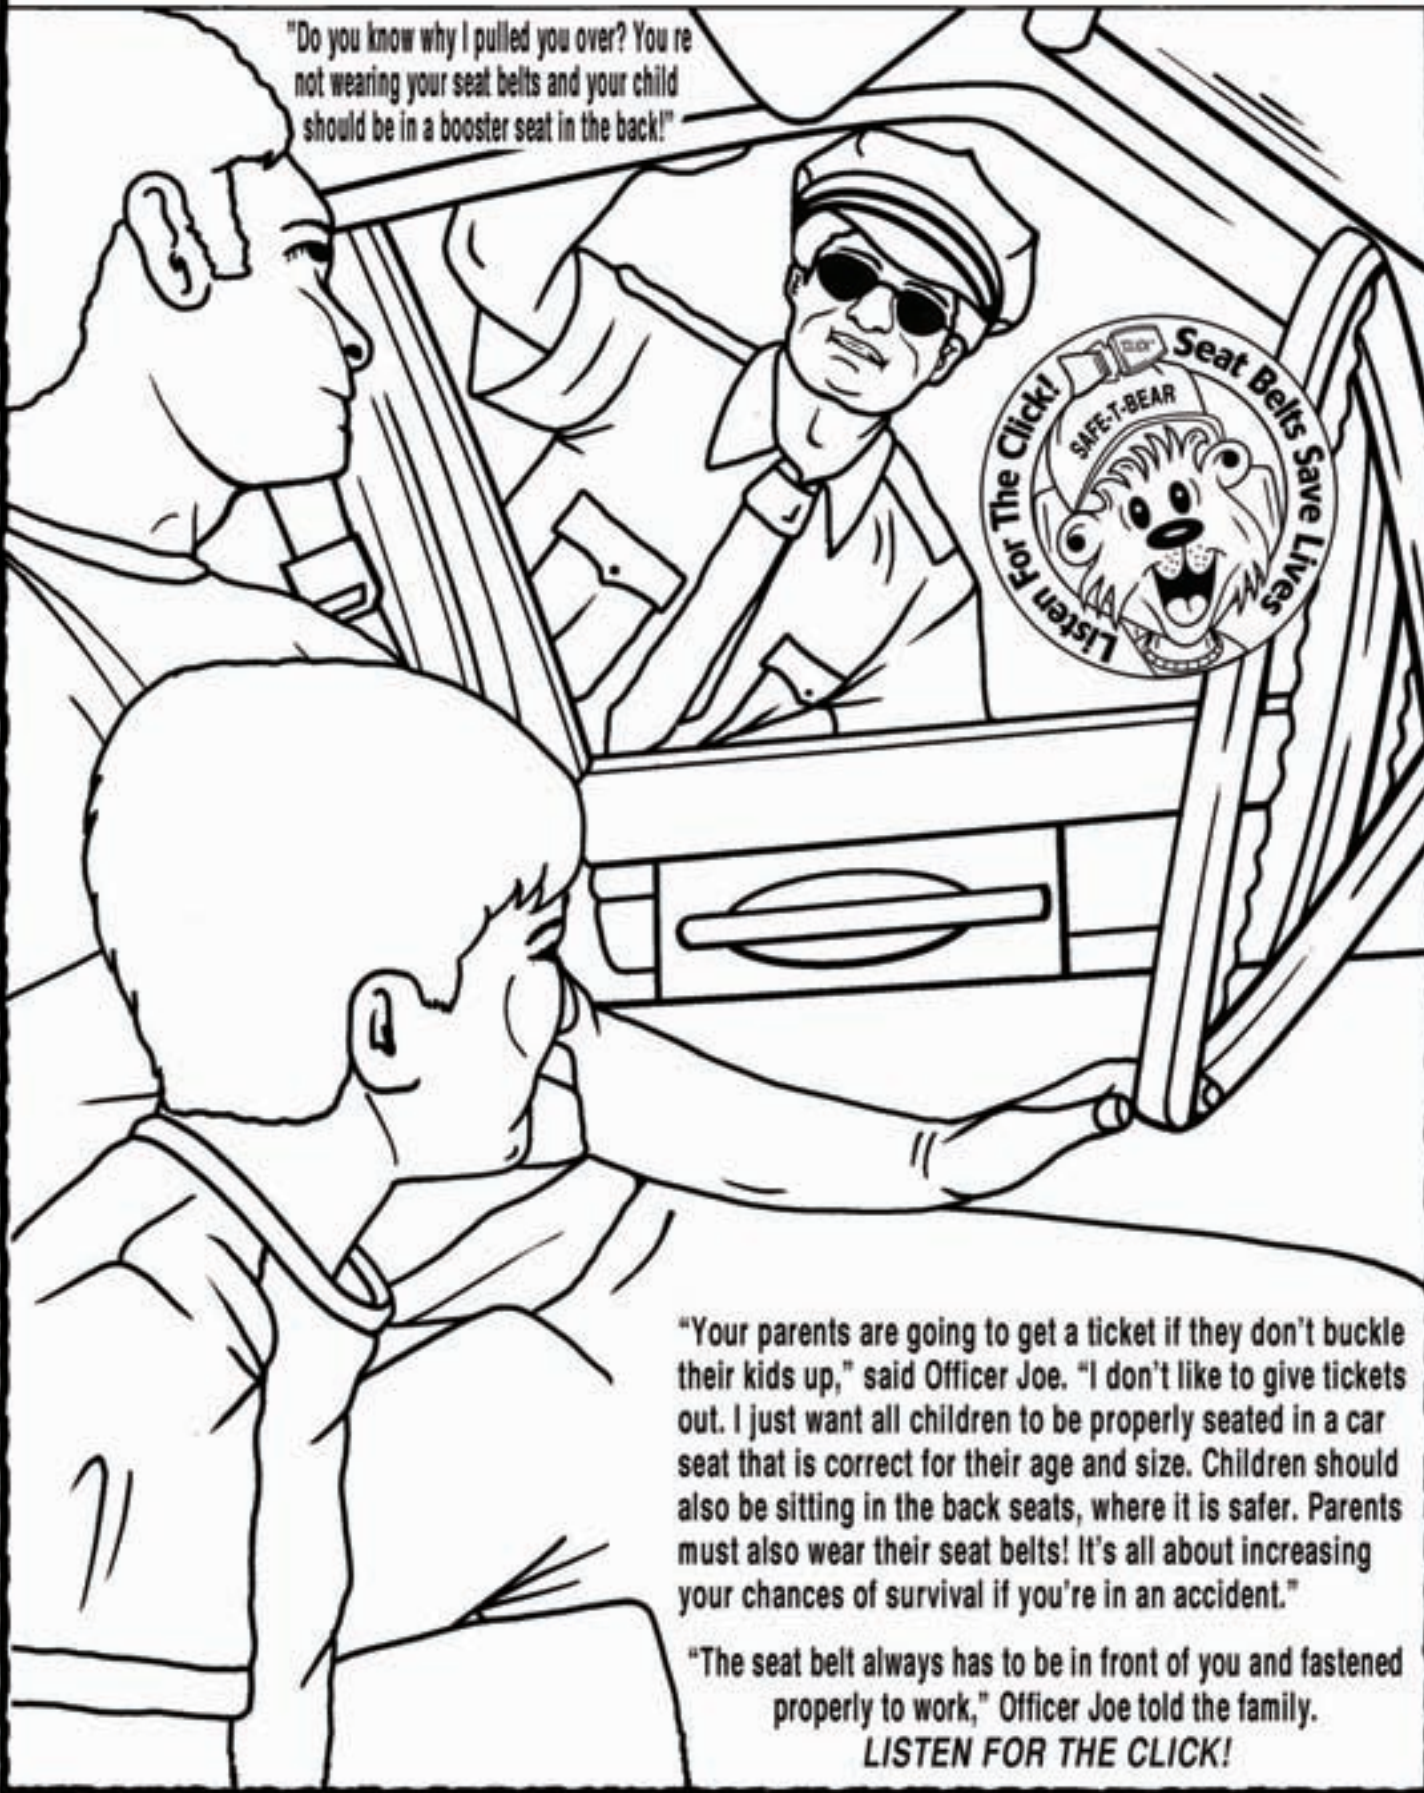

Hey, Listen Up...
The riders in the
back seat of a car
or SUV need the
protection of a seat
belt just as much as the
driver or the front seat passenger.
The safety of everyone is equally important!

Our Family Always Buckles Up!

GOTTA FOLLOW THE RULES!

"Do you know why I pulled you over? You're not wearing your seat belts and your child should be in a booster seat in the back!"

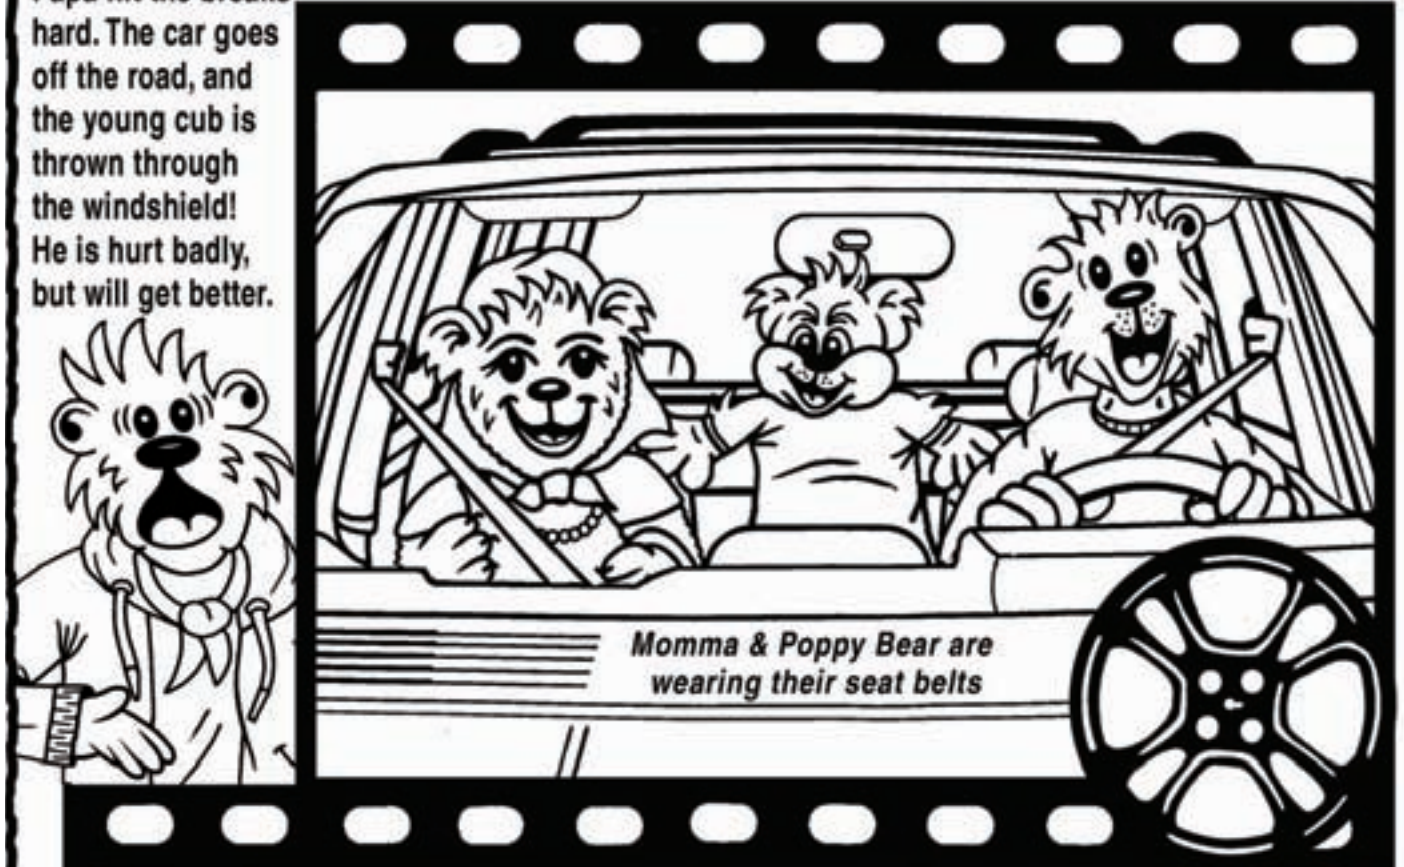

"Your parents are going to get a ticket if they don't buckle their kids up," said Officer Joe. "I don't like to give tickets out. I just want all children to be properly seated in a car seat that is correct for their age and size. Children should also be sitting in the back seats, where it is safer. Parents must also wear their seat belts! It's all about increasing your chances of survival if you're in an accident."

"The seat belt always has to be in front of you and fastened properly to work," Officer Joe told the family.

MOVIE: TRAGEDY STRIKES!

PLOT: All is going well for the Bear family on vacation, until a stray dog runs in front of their car. Little did they know, their young cub had taken off his seat belt and slid forward from his booster seat.

Papa hit the breaks hard. The car goes off the road, and the young cub is thrown through the windshield! He is hurt badly, but will get better.

Momma & Poppy Bear are wearing their seat belts

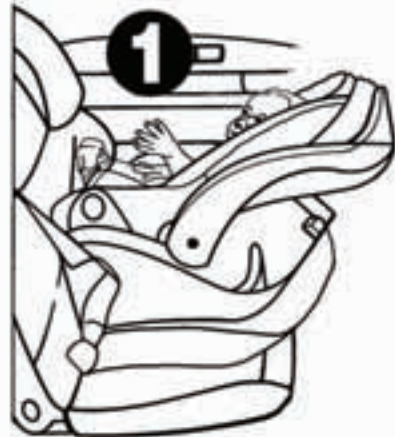

Never take off your seat belt until the car is fully stopped and the engine has been shut off.

Those Are the Rules!

TOP 6 DANGERS OF KIDS AROUND VEHICLES

1

#1: ROLLOVERS

The #1 danger is the backover or frontover, when a car pulls into or out of a the driveway or space. Fifty children are run over each week. Two of those 50 will die.

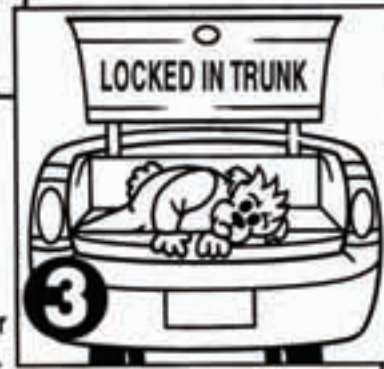

5

#5: **HEATSTROKE** kills many children every year! A child's body can heat up 5 times faster than an adult's body. **NEVER** leave a child unattended in a vehicle no matter what the temperature.

2

#2: **POWER WINDOWS** cause many children to hurt themselves when a window closes on their fingers, hands or wrists. Some children have even been stranded.

3

3-TRUNK ENTRAPMENT

Sometimes children like to hide in places they shouldn't! Tell your child about the dangers. Newer cars have trunk releases.

#4: SEAT BELT ENTANGLEMENT

4

#4: **PARENTS:** help your child put on their seat belts! A child may become tangled-up in a seat belt if they pull the belt all the way out, thus wrapping the belt around their chest, neck and head. Always check on your child!

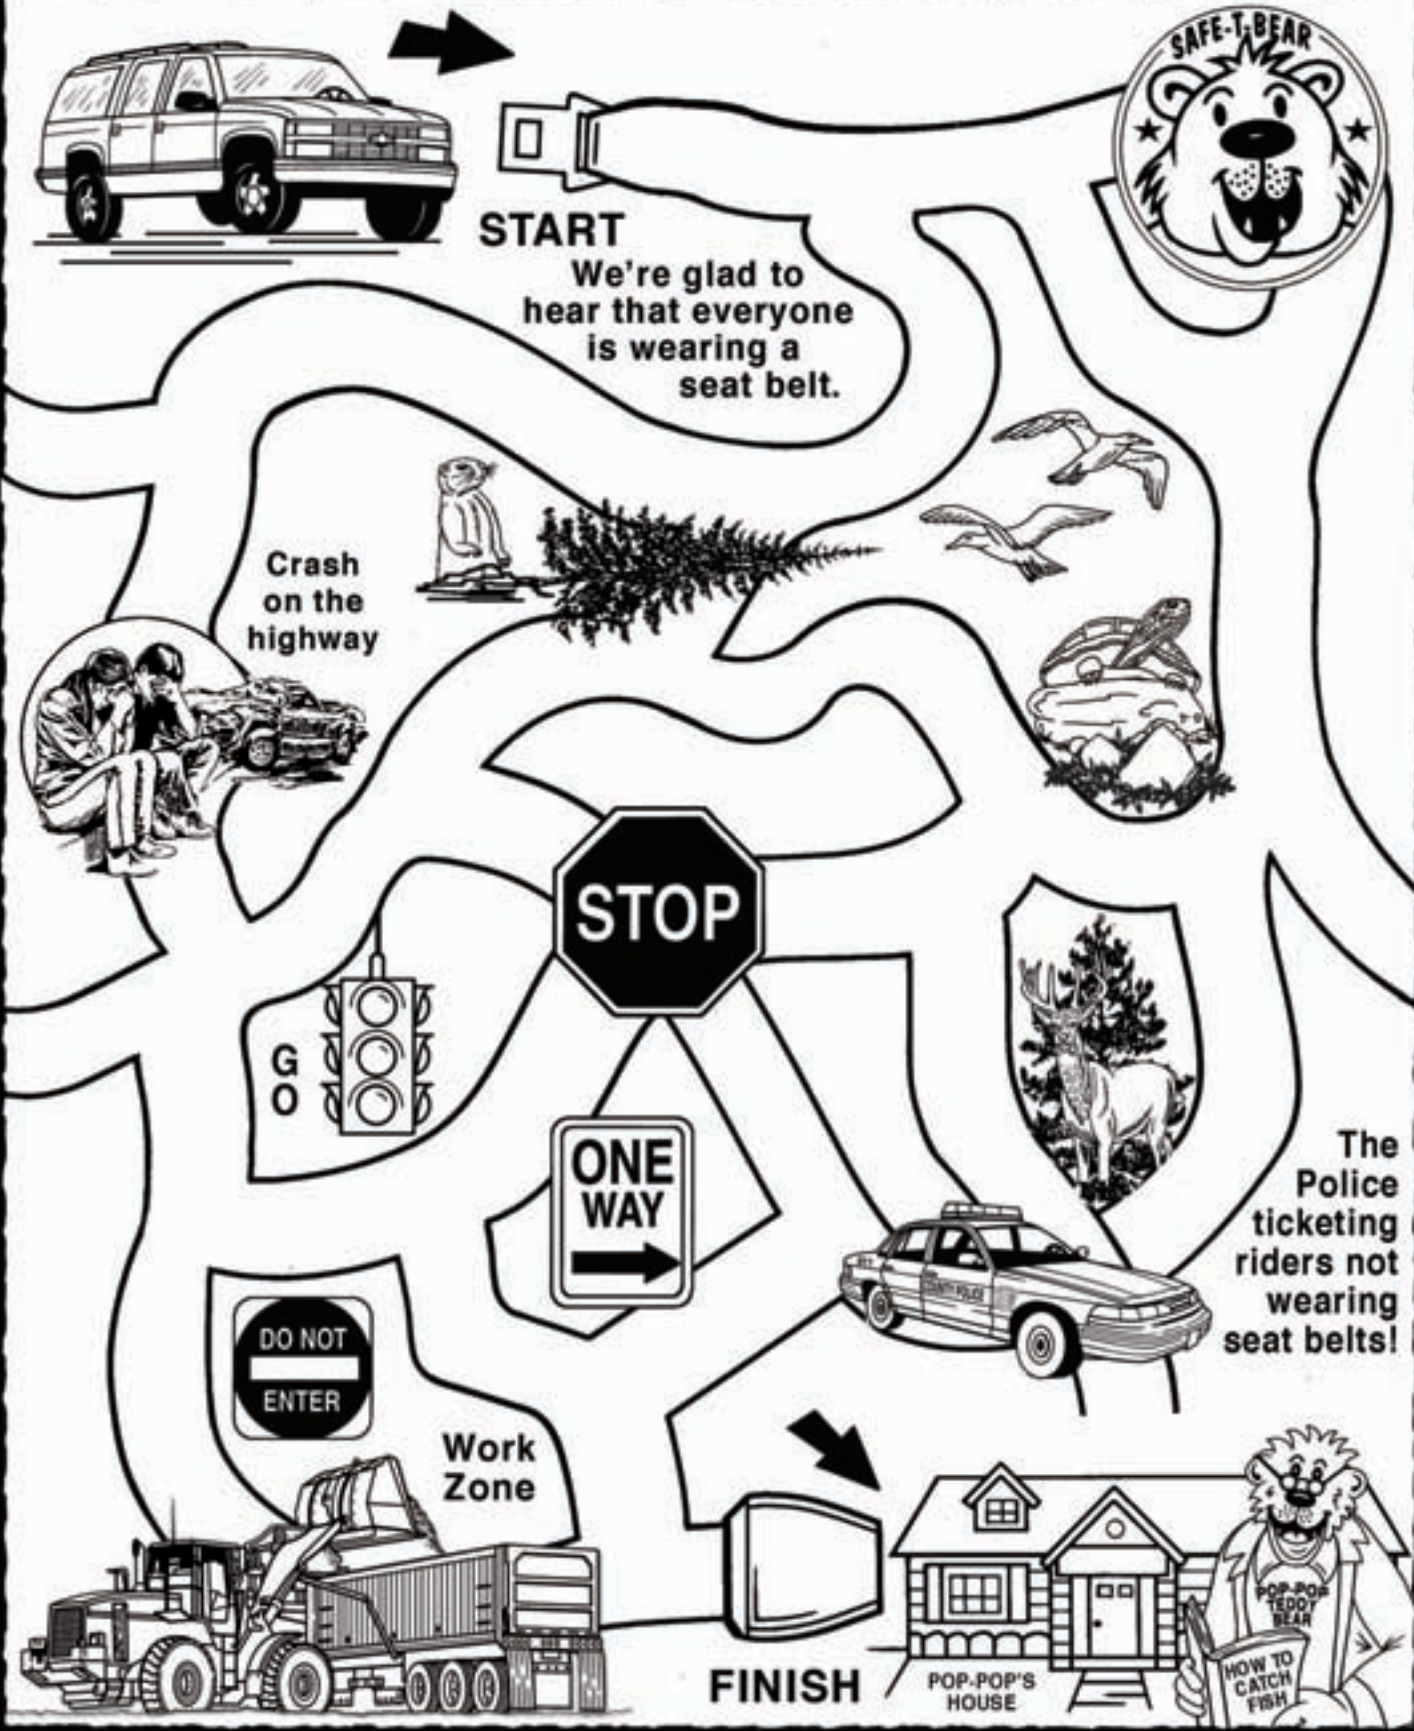

6

#6: **CARS ARE NOT TOYS!** Store keys out of a child's reach! Never allow kids to play in a car.

Cars can roll away if the keys are left in the ignition and the driver's foot is not on the break!
